MESSAGE FROM PRO-CHANCELLOR

IILM endeavours to make legal education as justice education, as an instrument of social, political, and economic change, and to prepare lawyers who will be competent in the art of advocacy both at trial and also at the appellate level. The vision and aim of the University is to impart comprehensive and interdisciplinary legal education which will promote legal and ethical values while fostering the rule of law. The primary mission of the university is to create a generation of lawyers who will be professionally competent, technically sound, and socially relevant and who will not only enter the bar and the bench but also be equipped to address the imperatives of access to justice and constitutional values.

Through practical training, students are equipped to adapt and thrive in a constantly evolving legal environment.
